Subject: Locations of wells at Haskell Lake
Capture.JPG

Hello Kristen,

I'm working on a report summarizing the private well sampling done at Haskell Lake in September and October. I have coordinates for the wells that Lucas from CWE sampled, but was hoping to identify the locations of the two residences that you sampled (I believe they were 1285 Haskell Lake Landing and 14299 State Highway 70).

I've attached a photo that shows the two locations that I am guessing were the two residences in question. Could you please take a look and let me know if I'm correct – and if not maybe help me find the right spots?

Thank you very much for any help,

--Matt
